5-15R to L5-15P Adapter Power Cord - Heavy Duty, 15A, 120V, 14 AWG, 1 ft., Black

MODEL NUMBER: **P025-001**

Heavy-duty extension cord converts a NEMA 5-15P plug into a locking NEMA L5-15P.

Features

Heavy-Duty Extension Cable for Network Devices That Require a Heavy-Gauge Connection
This 5-15R to L5-15R adapter features 14 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. It converts a standard NEMA 5-15P plug into a locking NEMA L5-15P plug, so it can connect to wall outlets, PDUs, surge protectors or UPS systems with NEMA L5-15R outlets. The three-foot length helps reduce cable clutter and minimize the risk of tripping.

Locking L5-15R Connector Helps Prevent Accidental Disconnection and Expensive Downtime
Having a cable come loose accidentally can mean the loss of power and costly downtime. The locking NEMA L5-15R connector helps you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking cable is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the power cord always stays connected.

Highlights

- Recommended for powering computers, servers and other network devices
- 1 ft. length allows flexibility in placing devices, while avoiding cable clutter
- Heavy-duty power adapter replaces or upgrades standard cord provided by manufacturer
- Thick 14 AWG wire gauge manages high power levels required for larger equipment

Applications

- Connect devices like computers, servers and monitors to a PDU in your data center
- Extend an existing power connection up to 1 ft. to more easily place a device or reach a power source in a rack
- Update or replace the standard power cord provided by a device's original manufacturer

Package Includes
