

## KVM Switch Accessories - NetCommander USB Server Interface Module

MODEL NUMBER: **B078-001-USB**

### Description

The Tripp Lite NetCommander USB Server Interface Module connects to the HD15 port and USB port on a computer/server, and converts them to a single RJ45 connector. Ordinary Cat5e patch cables can then be used to connect the server to the switch ports on a Tripp Lite B072-Series NetCommander Cat5 KVM switch. Use of Cat5e cables frees up space in the installation that would ordinarily be filled by traditional, thicker KVM cables.

### Features

- Eliminates the need for thicker, heavier KVM cables
- Compact, lightweight design
- Plug and Play; no software required
- No power supply required
- Allows a Server/CPU to be located up to 35ft away from the KVM switch

## Specifications

OVERVIEW	
UPC Code	037332127518
PHYSICAL	
Shipping Dimensions (hwd / in.)	1.000 x 6.500 x 6.500
Shipping Dimensions (hwd / cm)	2.54 x 16.51 x 16.51
